

## TUITION FEE

1. According to the Dean's order no. 1/2012 (January 02) modified by Dean's order no. 2/2018 (January 8), the tuition fee for the 6th year depends on what yearly tuition fee scheme the student has. In the academic year 2019/2020, there are 5 possible tuition fee schemes. **The basic fee is 46% of the yearly tuition fee of the student. The basic fee is the tuition fee of the first (fall) semester of the academic year according to Article 9 (1) of the Dean's Order. The basic fee is to be paid by all the 6<sup>th</sup> year students for the first semester of the 6<sup>th</sup> year.** The deadline for the payment is identical with that of the 1-5 years as specified in the schedule of the given academic year, determined by the Faculty Council.
  - Students paying *12600 USD* yearly tuition fee (beginning their studies in 2009) have to pay a basic fee of 5796 USD.
  - Students paying *13600 USD* yearly tuition fee (beginning their studies in 2010) have to pay a basic fee of 6256 USD.
  - Students paying *14000 USD* yearly tuition fee (beginning their studies in 2011) have to pay a basic fee of 6440 USD.
  - Students paying *14800 USD* yearly tuition fee (beginning their studies in 2012) have to pay a basic fee of 6808 USD.
  - Students paying *15300 USD* yearly tuition fee (beginning their studies in 2013 and in 2014) have to pay a basic fee of 7038 USD.

It includes all the charges for the final examinations in 6 subjects, thesis defence, Final Closing Examination, and maximum 4 weeks (120 practical hours) of clinical practice completed in Pécs. All bank charges are to be paid by the student.

2. An additional fee of 1.5% of the yearly fee per week must be paid for each week (or 30 hours) done in Pécs which is above the 4 weeks granted for the basic fee. It is 189 USD / 204 USD / 210 USD / 222 USD / 229,5 USD per week, respectively. Students not completing any practices or completing maximum 4 weeks in Pécs do not have to pay any tuition fee for the second semester. Students who have to pay additional tuition fee (for more than 4 weeks=120 hours spent in Pécs) will have to pay the remaining part of the tuition fee and submit the payment confirmation **after the 6th year is completed (middle of May) but before the written Final Closing Examination at the latest.** The basis of calculating the extra tuition fee is the amount of hours (calculated with the basic 30 hours/per week!!!) spent in the University's clinics and its affiliated teaching hospitals.
3. It is possible to complete the practices in a shorter time than it is recommended in the curriculum. If the period completed is shorter than the required, the number of practice hours per week must be more than is prescribed (30 hours per week), but the number of hours completed per day cannot exceed 8 hours (in the US 7 hours), therefore **maximum 40 hours per week.** Altogether a practice has to be as long as the practical hours prescribed by the curriculum.
4. Tuition fee reduction is possible for the basic fee based on academic achievement. The reduction shall only be given upon the student's request on the specific request form, submitted until the deadline determined in the schedule of the given academic year and provided the student meets all the criteria of this type of reduction. The reduction shall be only applied for the basic fee. For the extra fee only social needs reduction can be requested.

Training programme	General Medicine 2009	General Medicine 2010	General Medicine 2011	General Medicine 2012	General Medicine 2013 and 2014
Yearly fee – regular fee for whole academic year (USD)	12600	13600	14000	14800	15300
